I am writing to thank Nadler Modular and commend you on the modular class rooms we purchased several years ago. These class rooms proved to be the most comfortable and spacious class rooms of our school. Our teachers were always happy to work in them because they were well lit and designed efficiently to accommodate our students. The rooms provided a safe and comfortable space for the children to learn in.

I also want to thank you for working tirelessly and patiently with our school when the time came to remove the trailers. Your team moved quickly to accommodate our last minute schedule and made the move happen without incident.

Your service and professionalism were much appreciated. Thank you.

Sincerely,

Solomon Bitton  
President
