To: Nadler Modular

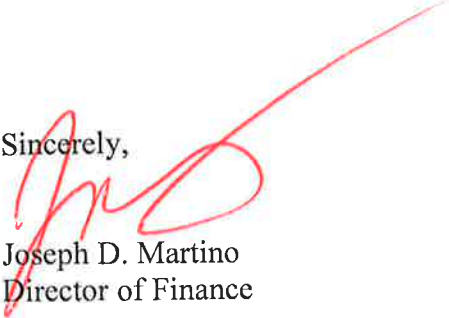

From: Joseph Martino, Director of Finance

Re: Shelter Rock Portables

Over my career I have worked with many contractors in all areas of school projects. The project we did with Nadler Modular was completed on time and both Mr. Muller and his crews performed an excellent job. The site was being used by our students during the day but the crew worked very fast to complete all the work that was promised. The pricing was very competitive and allowed us to add an enclosed connected to the school allowing students secure access to the main building. I would use Nadler again on another project without question.

Please contact me if you have any questions.

Sincerely,

Joseph D. Martino  
Director of Finance
